Continuation of 11. does NOT place the application in condition for allowance because: The Applicant argues that it is not obvious to combine Jensen and Ketels. This argument is not persuasive. Jensen and Ketels teach food cutting devices. Ketels teaches providing two inclined belts for aligning food products. Therefore, it would have been obvious to one skilled in the art at to provide inclined belts as taught by Ketels to the food cutting device of Jensen for aligning food products to ensure that the food products are cut at their midsections.
